How you can make a difference to the lives of homeless children

> Every night across Australia there are **36,000 young homeless people** roaming our streets in search of food, clothing and safety, over 9,200 here in Victoria. These disadvantaged children need rehabilitation, an education and an opportunity to participate in a positive and healthy life.

> Contributions from this fundraising event will support PIF's new commitment to Open Family Australia's Wyndham Project which will provide much needed support for desperate young people who have nowhere to go. Our charities are approved by the PIF Board, and managed by a dedicated committee to ensure donations are well spent.
