Funds raised from our Yachting Regatta will contribute to the PIF House Program

“ Without the fantastic support I received, I'd still be living on the streets ” *Tamara*

Tamara's mother was addicted to drugs and so at 6 months old she was taken into foster care.

"I'm not sure how many foster families I had," she said. At age 17, the relationship with her then foster family broke down and they asked her to leave. Without anywhere to go and friends unable to take her in, she slept in a car.

Tamara said she now has the support and direction she has been looking for all her life.

We welcome Tamara as our Regatta Ambassador

The Regatta is all about the young people. We have chosen Tamara as a young person to represent the event. She completed the Regatta's 2017 Youth Sailing Program last year and will help other young people in the 2018 program.

Where the funds will go

The PIF House Program helps at-risk and homeless young people just like Tamara rebuild their lives.

Within the program we have committed to building 125 bedrooms over the next 5 years. This year we have built homes comprising 28 rooms and have two more houses in the pipeline.
