Program

The official opening of four new homes for young people.

Official Opening

Monday 27 November 2017
40 Stewart Street, Dundas

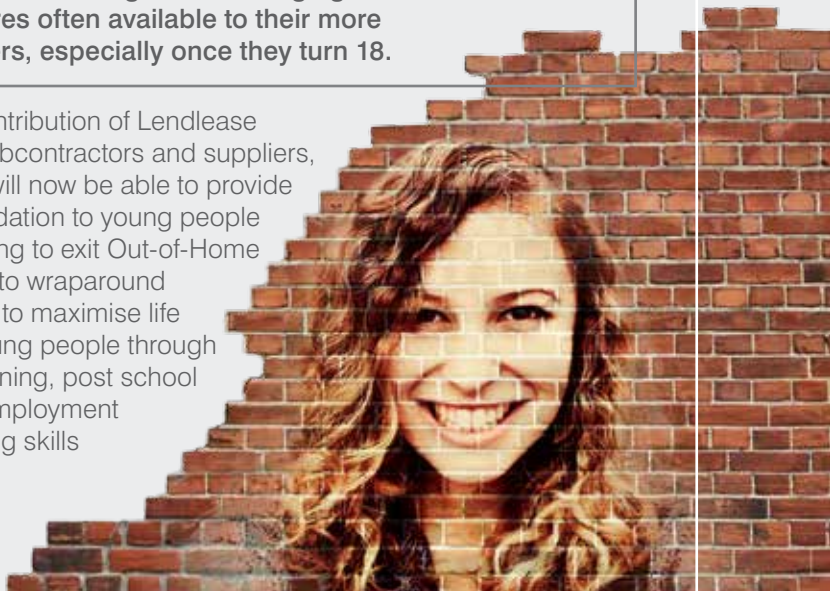

PIF House Program rebuilding young lives.

Wesley Take Charge of Your Life was developed to fill a gap that currently exists, to assist young people transition successfully from living in Out-of-Home Care to living independently by providing them with the right supports.

For young people living in Out-of-Home Care, contemplating the future can be unsettling and challenging without the support structures often available to their more advantaged peers, especially once they turn 18.

Thanks to the contribution of Lendlease and all of their subcontractors and suppliers, Wesley Mission will now be able to provide live-in accommodation to young people exiting or preparing to exit Out-of-Home Care, in addition to wraparound service supports to maximise life outcomes for young people through leaving care planning, post school education and employment support, and living skills training.

Official Opening Program
